SUMMARY

Honor college graduate, knowledgeable in React.js and with 3 years of relevant software development experience, seeks a position as a software developer at a top IT firm. Enthusiastic in frontend design and development, with good adaptability and highly competent at learning new technologies.

EXPERIENCE

Software Developer

AP Global IT Solutions Inc.   **November 2022 – Present, Antipolo City, Philippines**

- Designed and developed web applications using *React.js*, *JavaScript*, and *Material-UI*, ensuring clean, efficient, and user-friendly interfaces.
- Leaded the initial phase of development for new projects by creating the foundational frontend structure, designing layouts, UI components, and assets that align with project specifications and requirements.
- Awarded "Rookie of the Year" in recognition of exceptional performance, dedication, and contributions to team success during the first year.
- Shifted to full-stack development after a year of service, gaining proficiency in *Next.js*, *Typescript*, *Prisma*, and *GraphQL* to handle both front-end and back-end development tasks.
- Engaged in bootcamp sessions and occasional learning opportunities to enhance technical skills and stay up to date with emerging trends and technologies in the software development field.

RELATED EXPERIENCE

Frontend Developer Intern

AP Global IT Solutions Inc.   **September 2022 – November 2022, Antipolo City, Philippines**

- Assisted in the design, development, and implementation of user interfaces for web applications, collaborating with senior developers to enhance functionality and improve user experience.
- Contributed to the frontend development of multiple projects using *React.js*, *JavaScript*, and *Material-UI*, ensuring clean, maintainable, and reusable code.
- Engaged in code reviews and participated in sprint planning, daily stand-ups, and collaborative problem-solving sessions.

Capstone Lead Developer

Mindanao State University   **October 2021 – June 2022, Marawi City, Philippines**

- Spearheaded frontend development and design, building intuitive user interfaces using *Vue.js*, *Quasar Framework*, *HTML/CSS*, and *Typescript*.
- Served as Team Lead, overseeing team coordination and resolving technical and operational challenges to ensure project progress.
- Acted as Product Manager, defining project scope, creating detailed timelines, and gathering user requirements.
- Managed the full documentation process, including writing the Capstone manuscript, detailing the development process, design decisions, and technical architecture of the project.
