SUMMARY

Honor college graduate, knowledgeable in React.js and with 3 years of relevant software development experience, seeks a position as a frontend/software developer at a top IT firm. Enthusiastic in frontend design and development, with good adaptability and highly competent at learning new technologies.

EXPERIENCE

Front End Engineer
Emapta Versatile Services Inc.   **April 2025 – Present, Mandaluyong City, Philippines**
- Migrated client's legacy WordPress websites to modern stacks using *Next.js*, *Typescript*, and *Tailwind-CSS*, enhancing site performance, scalability, and development workflow.
- Assisted in developing a dynamic e-commerce project utilizing *Next.js*, *Builder.io*, and *Radix-UI* for accessible, component-based interface design, contributing to a flexible and modern user experience.
- Collaborated closely with UI /UX designers throughout the development process to transform design mockups into fully responsive, accessible, and visually polished user interfaces.
- Managed and maintained migrated websites internally, ensuring ongoing performance optimization, content updates, and technical support.

Software Developer
AP Global IT Solutions Inc.   **November 2022 – January 2025, Antipolo City, Philippines**
- Designed and developed web applications using *React.js*, *JavaScript*, and *Material-UI*, ensuring clean, efficient, and user-friendly interfaces.
- Led the initial phase of development for new projects by creating the foundational frontend structure, designing layouts, UI components, and assets that align with project specifications and requirements.
- Shifted to full-stack development after a year of service, gaining proficiency in *Next.js*, *Typescript*, *Prisma*, and *GraphQL* to handle both frontend and backend development tasks.
- Engaged in bootcamp sessions and occasional learning opportunities to enhance technical skills and stay up to date with emerging trends and technologies in the software development field.

RELATED EXPERIENCE

Frontend Developer Intern
AP Global IT Solutions Inc.   **September 2022 – November 2022, Antipolo City, Philippines**
- Assisted in the design, development, and implementation of user interfaces for web applications, collaborating with senior developers to enhance functionality and improve user experience.
- Contributed to the frontend development of multiple projects using *React.js*, *JavaScript*, and *Material-UI*, ensuring clean, maintainable, and reusable code.
- Engaged in code reviews and participated in sprint planning, daily stand-ups, and collaborative problem-solving sessions.

Capstone Lead Developer
Mindanao State University   **October 2021 – June 2022, Marawi City, Philippines**
- Spearheaded frontend development and design, building intuitive user interfaces using *Vue.js*, *Quasar Framework*, *HTML/CSS*, and *Typescript*.
- Served as Team Lead, overseeing team coordination and resolving technical and operational challenges to ensure project progress.
- Acted as Product Manager, defining project scope, creating detailed timelines, and gathering user requirements.
- Managed the full documentation process, including writing the Capstone manuscript, detailing the development process, design decisions, and technical architecture of the project.
